

FEES & CONDITIONS OF SEPTAGE DISPOSAL

1. All loads must be ticketed certifying their origin.
2. Invoices will be submitted to you monthly and are due by the 25th of the month. Fees are as follows:

Base Service Dumping Fee	\$20.00/ticket
Usage Fees per Gallon	\$.08

If the 25th of the month falls on a non-work day, the due date is extended until the next business day. Accounts remaining unpaid after the 25th of the month are charged a one-time late charge penalty in the amount of ten percent (10%) on the current past due principal. The late charge is not compounded. Accounts in arrears in excess of thirty (30) days will be sent cutoff notices. Service at the Authority's facilities will be denied until your account is current.

3. Septage will only be accepted at the Remington Wastewater Treatment Plant.
4. Current estimated septage treatment capacity at the Remington WWTP is 200,000 gallons monthly. Septage will be received until this ceiling is reached on a first come first serve basis.
5. FCWSA will only accept loads between the hours of 7:00 a.m. to 2:00 p.m. and prefers to be notified in advance of delivery, whenever possible. FCWSA reserves the right to refuse any load, should it be determined that its content would have an adverse impact on plant operations. In the event that a particular load is determined to have had an adverse impact on plant operations, content analysis will be provided to the Authority by a laboratory of its choice. Costs of this analysis will be born by the hauler.
6. All determinations of amounts discharged at the Remington WWTP will be made by Authority personnel unless the hauler can provide an acceptable alternate means of metering.
7. All loads will be discharged at a location and manner acceptable to Authority personnel. All excess debris (rags, plastic, grit, etc.) will be removed by the hauler.
