FEES & CONDITIONS OF SEPTAGE DISPOSAL

1. All loads must be ticketed certifying their origin. The FCWSA only accepts septage loads originating from Fauquier County.

2. Invoices will be submitted to you monthly and are due by the 25th of the month. Rates are as follows effective 7/01/2026:

Fee	07/01/2026	07/01/2027	07/01/2028	07/01/2029	07/01/2030
Per Gallon	$0.120	$0.131	$0.143	$0.155	$0.169

- Food trucks, RVs, and similar vehicles $30.00
- Hauled waste minimum charge is 1,000 gallons, then per-gallon after.
- Annual Permit Fee of $150.00 required per permitted hauler.
- Problematic Waste Surcharge. Loads determined by Authority operations staff to contain excessive rags or other trash will be charged a 50% surcharge in addition to the Discharge Per Gallon rates above.

*Rate hearing was held on 5/26/2026.

If the 25th of the month falls on a non-work day, the due date is extended until the next business day. Accounts remaining unpaid after the 25th of the month are charged a one-time late charge penalty in the amount of ten percent (10%) on the current past due principal. The late charge is not compounded. Accounts in arrears in excess of thirty (30) days will have privileges revoked. Service at the Authority's facilities will be denied until your account is current.

3. Annual Permit Fee must be paid at time of application or renewal. Fee will not be billed.

4. Septage will only be accepted at the Remington Wastewater Treatment Plant.

5. A gate access code will be provided to active septic haulers whose accounts are paid in full, allowing access during normal operating hours of 7:00 a.m. to 2:00 p.m. If Annual Permit Fee is not paid or account is more than thirty (30) days past due, the gate access code will be terminated. A new gate access code will not be provided until Annual Permit Fee is paid and/or account is paid in full.

6. Current estimated septage treatment capacity at the Remington WWTP is 200,000 gallons monthly. Septage will be received until this ceiling is reached on a first come first serve basis.

7. FCWSA will only accept loads between the hours of 7:00 a.m. to 2:00 p.m. and prefers to be notified in advance of delivery, whenever possible. FCWSA reserves the right to refuse any load, should it be determined that its content would have an adverse impact on

plant operations. In the event that a particular load is determined to have had an adverse impact on plant operations, content analysis will be provided to the Authority by a laboratory of its choice. Costs of this analysis will be borne by the hauler.

8. All determinations of amounts discharged at the Remington WWTP will be made by Authority personnel unless the hauler can provide an acceptable alternate means of metering.

9. All loads will be discharged at a location and manner acceptable to Authority personnel. All excess debris (rags, plastic, grit, etc.) will be removed by the hauler.
